Department of Botany

Tour Report (2018-19)

Study tour of M.Sc. Botany students was arranged to Gugale Tissue Culture Laboratory, Jamkhed Dist. Ahmednagar on the date 08/03/2019. M.Sc. students were participated in the tour. Gugale Tissue Culture Laboratory gives an insight to modern farming techniques. This place specialized in micropropagation of banana. Different methods and advantages were explained to the students. Callus culturing, micropropogation, explants culture, and media preparation for plant tissue culture techniques studied by students theoretically and observing. The applications made them appreciate the beauty of the field.

A whole plant can be regenerated from a small tissue or plant cells in a suitable culture medium under controlled environment. The plantlets so produced are called tissue-culture raised plants. These plantlets are a true copy of the mother plant and show characteristics identical to the mother plant. For example, if the mother plant is a high yielding plant the plantlets will also be high yielding. Many plant species are presently being propagated through tissue culture successfully. Students studied the various techniques involved in tissue culture viz. Preparation of nutrient medium, Establishment of aseptic culture, Inoculation, Development of plants in growth room, Hardening of micro plants, Ex-agar plants, Hardened plants and Advantages of Micro-propagation technology.

Prof. Bondarde sir and Prof. Vaghule Sir played very important role as Students co-ordinator .

INDUSTRIAL VISIT AT IT PARK

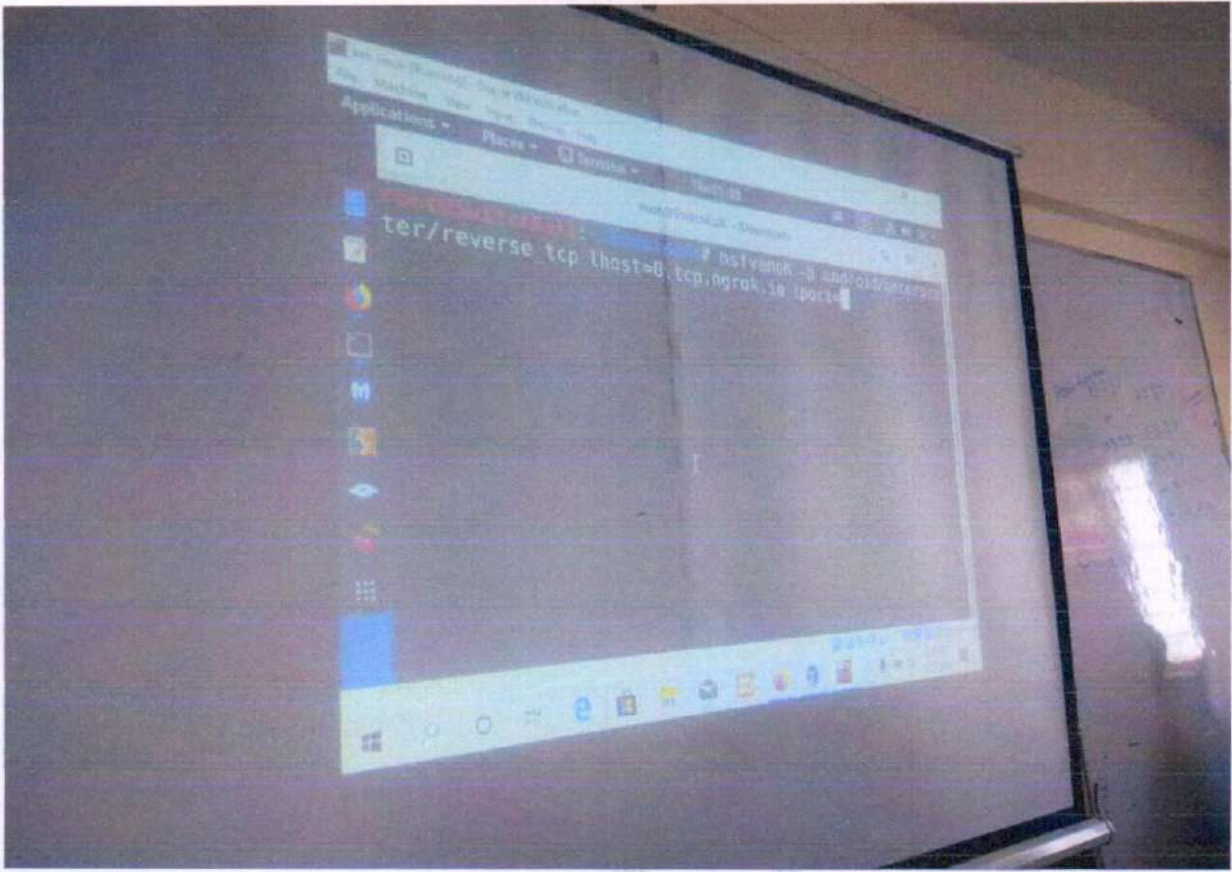

AHMEDNAGAR

2019-2020

Gandhi college,BCA department has arranged one day industrial visit to as on date 14/01/2020. from f.y,s.y, t.y most of the students are part industrial visit. The co-coordinator in this trip was Prof. Sanket Gandhi ,Prof.Waghule V.T, & Prof.Bondarde S.S.

Students of Gandhi College BCA Department while attending the Lecture On,how actually company works in IT sector.

PURPOSE OF VISIT:-

Industrial visits are important for the following reasons:

1. To gain a practical knowledge of the actual working of the organization.
2. To get the practical knowledge of the project development process.
3. To adopt criteria about the management.
4. To study co-ordination between different departments.
5. How to control various circumstances.

In order to achieve the above mentioned objectives we had organized an industrial visit at Talentesia Software Technologies, Pune

Significance of the Industrial Tour

The basic objective of having industrial tour is for studying various aspects related with different industrial units. The different techniques and methods being used in industries are studied in order to gain wide outlook concerning industrial activities for that purpose.

PERSONAL EXPERIENCE OF STUDENTS

The industrial tour was the interface between the college life and the corporate world. All those who attended experienced the moment. It was clear that all the basic and fundamental of each subjects and programming language should be learnt thoroughly. Our students learnt how to work with Data Base in Oracle, what are the current Scenario of Market, which programming language should be selected for career. They told us what the needs of the software development companies are, what they are expecting from us as the fresher's. They guided us how to prepare for the corporate world after completing BCA.

CONCLUSION

The experience of this tour was really fantastic and unforgettable. It was reverberating experience which cherished all of us. Students got valuable information from this industrial tour and they guided us how to stand in the corporate world in the era of competition. We got to learn a lot many more things from this VISIT.

Prof. Bondarde S.S and Prof. Waghule V.T played very important role as Students co-ordinator .
